INTRODUCTION

The EJTN has developed in 2015 for the first time a detailed calendar of activities composed of tables ordering the seminars by dates, topics and venue, plus a one-page description of each activity, as well as useful annexes referring to the deadlines for application and allocation of places where applicable.

Following the success and usefulness of the 2015 calendar, we have continued to implement this tool in 2016 and 2017 and we are now presenting the **2018 Calendar of activities which contains 100 activities** to be developed in 2018 in the fields of Administrative, Civil and Criminal Law, Human and Fundamental Rights, Linguistics, Judicial Training Methods, THEMIS, Summer Schools and Catalogue plus.

Catalogue of Members' activities and Judicial Exchanges, including study visits, are not covered by this calendar and will be addressed separately, following a procedure identical to that of previous years.

The Calendar of Activities has been designed to answer two main concerns expressed by the training institutions: the need to receive all relevant information regarding EJTN trainings before the start of their implementation year, and the need to decrease the number of emails received from the Secretariat.

As a consequence, the Calendar of Activities will replace the individual Calls for Application previously sent a few months in advance of each seminar. Only one monthly reminder listing the approaching deadlines for application will be sent at the beginning of each month, together with information highlighting any updates made to the calendar. In this Calendar, training institutions will find all the information required to select participants to each EJTN activity. In addition, a table listing all application deadlines for the year 2018 is available in Annex I.

For the activities only opened to some Member institutions (Criminal Justice seminars on EAWs and MLAs simulations/ Cross-border evidence in Practice and Procedural safeguards in Criminal Proceedings in the EU in Practice, Catalogue Plus), participating institutions have been pre-assigned to each seminar. This information is reflected in the relevant activity pages of the calendar. This notwithstanding, in order to facilitate the identification of the relevant seminars by the assigned training institution, tables of Criminal Justice activities listed above, Catalogue + ordered by participating institution are available in Annexes II, and III respectively. All other activities are opened to all Members.

The priority list of selected participants for each activity, as well as the reserve list, will be uploaded on the new online registration platform <https://osp.ejtn.eu/login> (access will be granted separately each EJTN Member) and must contain the following information:

Priority (numeric order/ reserve	Applicant First Name	Applicant Last Name	Function (Judge- Prosecutor- other)	Applicant Email	Institution of origin	Profes- sional Address	Phone	Member State (ISO code)	Language (for Linguistics seminars only EN, FR, DE)
---	----------------------------	---------------------------	--	--------------------	--------------------------	------------------------------	-------	-------------------------------	--

In light of the risk of cancellations and vacancy openings, we strongly urge members to provide EJTN with reserve lists of candidates.

This calendar is available in electronic format on the EJTN's website at <http://www.ejtn.eu/Catalogue/EJTNs-searchable-database/>.

In addition, each activity page in the calendar comes with a link to the specific webpage of the corresponding training on the EJTN's website. Relevant documentation such as training materials, administrative documents and practical information will be available on the training's webpage and updated on a regular basis before the seminar.

ETHICS OF JUDGES AND PROSECUTORS – COMPARING STANDARDS IN JUSTICE SYSTEMS

CP/2018/02

26 FEBRUARY – 2 MARCH 2018	WUSTRAU, GERMANY	EJTN'S DEADLINE FOR APPLICATION: 22 JANUARY 2018
----------------------------	------------------	---

TOPIC:

Professional Practice

DESCRIPTION:

The conference addresses judges of all jurisdictions as well as prosecutors.

Around the world, work ethics of judges and prosecutors have become an issue of debate. During the last years, the topic has spread increasingly around Europe as well. Several countries have developed national ethics policies, e.g. Austria where, in 2007, the Association of Austrian Judges has passed a declaration of ethics containing principles by which the judges declare to be guided in their work.

The conference wants to illustrate the status quo of development using the example of Germany and the ideas, principles and expectations the German Constitution and the German Judiciary Act associate with judges. There will also be selected examples from other countries. The conference aims at collectively breaking the everyday would, enabling and encouraging a debate on the topic and raising the following questions for the participants:

- What is it that makes a good judge or a good prosecutor?
- Could and should judges and prosecutors in Germany give themselves ethical principles for their work?
- Which ethical principles should prevail?
- Should these principles be put into writing?
- Which values influence my professional behavior?
- What does independence of mind mean and how is it put into practice?

The conference will also be announced as part of the European Judicial Training Network (EJTN). It is particularly suitable for foreign participants.

For participation in the intended workshops at least basic command of English would be preferable.

INSOLVENCY LAW

CI/2018/02

11-12 APRIL 2018

BARCELONA, SPAIN

EJTN'S DEADLINE FOR
APPLICATION:
15 JANUARY 2018

DESCRIPTION

The added value of the two day-long training consist of delivering in-depth insights on highly specialized topics pertaining to diversified aspects of Cross-border Insolvency.

Cross-border insolvency (sometimes called international insolvency) regulates the treatment of financially distressed debtors where such debtors have assets or creditors in more than one country. Typically, cross-border insolvency is more concerned with the insolvency of companies which operate in more than one country rather than the bankruptcy of individuals. Like traditional conflict of laws rules, cross-border insolvency focuses upon three areas: choice of law rules, jurisdiction rules and enforcement of judgment rules. However, in relation to insolvency, the principal focus tends to be the recognition of foreign insolvency officials and their powers. The training will be carried out by leading academics and practitioners, expert speakers will be called to expand upon such aspects as jurisdiction, applicable law, EU instruments, recognition and enforcement of decisions and cooperation in matters relating to the subjects of the seminar. This training will combine theoretical lectures with practical workshops based on specialised case-studies and will serve as a forum for the exchange of knowledge and best practices between judges from across the EU.

The latter act as expert bystanders providing additional input. The cases selected will cover four areas: labor law (diversity in the workplace); family law (application of foreign personal statuses); asylum (how to assess cases of persecution), and criminal law (i.a. cultural defense).

The learning objective of this training is an increased awareness and sensitivity to take account of cultural diversity.
